ALIGNING ALL 3 TO CREATE TRUE PERSONAL CONNECTION

MOST PEOPLE STRUGGLE TO STAY FOCUSED ON THEIR GOALS

Setting the goal is easy, remaining focused is the hard part. But if you wrote the goal down it must have been important, so why are you not pursuing it at full pace? The key is that **you have not truly connected** to the goal using the three key elements ...

EMOTIONAL CONNECTION

This is where your passion comes from. How do you want to feel? What is your heart telling you to do? Why do you want to achieve that goal? If you don't have an emotional connection with your goal you will feel uninspired.

MENTAL CONNECTION

This is where your plan comes from. What do you need to achieve? What is your head telling you to do? What action steps do you need to take? When you don't have a mental connection with your goal you will feel lost that you don't have a plan to move forward.

PHYSICAL CONNECTION

This is where progress comes from. How are you going to make it happen? What do you have to create using your body/ the physical activity? What do you need to do now? When you don't have a physical connection with your goal you will feel frustrated that you are not taking action.

Confidence comes with progress.

Drivers + desires.
